Mr. Joey Brannan Superintendent

Equipping students to reach their dreams by providing an innovative, collaborative environment that promotes focus, creativity and confidence.

Greetings Summer School Teachers,

Welcome to the Eufaula City Schools summer program. Eufaula City Schools is committed to equipping students to reach their dreams by providing an innovative, collaborative environment that promotes focus, creativity and confidence. In an effort to create motivated, responsible learners capable of reaching their dreams, ECS offers a comprehensive Summer School Program for K-12th grade students.

We are happy that you can join us in this endeavor to bridge the summer gap for some of our students. For a few, this will be the extra support that can help that tough concept finally "click". For others, it will help stop the back-sliding that occurs this time of year. Our ultimate goal is to move all of these children forward, so that they can be successful in the 2018-2019 school year.

You are invited and encouraged to visit our school prior to the start of the summer program to become familiar with the buildings, staff and student expectations, along with the district curriculum.

This handbook, combined with the Board of Education policies, should provide you with a thorough understanding of our expectations and practices. You are responsible for knowing, following, and enforcing the information shared in this handbook as it relates to your work with students and their families. If you have questions that remain unanswered after reviewing this handbook, contact the summer school administrator. We welcome your ideas and suggestions on how we can improve communication and support.

Thank you for your efforts and enthusiasm. Wishing you a very successful summer school and enrichment experience!

Student Attendance/Absences

As stated in the ECS Code of Conduct (p.21), it is the belief of the Eufaula City Board of Education that regular school attendance is important to all students and to the school system. It is further believed that course content and grading procedures should be structured in such a fashion that regular attendance is necessary to successfully complete course requirements.

Subject to parental guidance, each student must be responsible for his/her own attendance. Administrators and teachers will make every effort to encourage regular attendance by students and to solicit assistance from parents and guardians in accomplishing this objective.

An absence is defined as non-attendance (except for in-school activities which are excused by school personnel) in a regularly scheduled class or activity, regardless of the reason for such non-attendance. According the Alabama State Department of Education's Attendance Manual, the following are reasons for which an absence from school may be excused:

- Illness,
- Death in immediate family,
- Inclement weather which would be dangerous to the life and health of the child as determined by the principal,
- Legal quarantine,
- Emergency conditions as determined by the principal, and/or
- Prior permission of the principal upon request of the parent or legal guardian.

Parents/guardians are expected to notify the school of their child's absence. The site administrator will take phone calls from parents regarding student attendance. Attendance should be taking within the first fifteen minutes of class. It is imperative to keep accurate, up-to-date records.

Student Conduct

Summer school administration, staff, and students will adhere to the ECS Code of Student Conduct regarding discipline. The school is a learning and working environment for both students and staff. Students, parents, and teachers expect a safe, orderly, positive environment in which one seeks to work and learn. Students have a responsibility to know and follow the rules and regulations of the school at all times. Students should respect themselves, others, and be responsible for their own actions

Students who are unable to meet our expectations will risk losing the privilege of attending summer school/enrichment. Students may be removed from all classes and program entirely. Administration will investigate and make a decision regarding the situation and consequences that will be assigned.

Teachers should explain their expectation and the consequences for positive and negative behavior at the start of the program/class. If a student demonstrates severe or repeated inappropriate behaviors, you are expected to notify the building administrator. Provide detailed information to the building administrator regarding the reason the student was/need to be removed from class.

Supervision of Students

Summer school staff are expected to ensure that all students are under adult supervision at all times.
